To: Frustrated Traffic Exchange User
From: Bernd Stange
Re: Getting Real Residual Profits From Traffic Exchanges

Dear Friend,

Warning: This system has the potential to earn you ALOT of cash! Read every word of this report and you will understand just how effective this system really is.

You are about to learn the shocking details on traffic exchanges and why 99% of the people that use them will never see one penny in real income from all the time spent using them. More importantly, you are about to discover how you can be sure that you are in the 1% that use traffic exchanges to make a steady income online!

My name is Bernd Stange and not too long ago I was exactly where you are right now. I was joining every new program that I could find in the hopes that this would be the one to change my life. As soon as I would join a new program or affiliate site I would copy my referral link, paste it into 20+ traffic exchanges and surf till I had blisters on my finger and then wait for the money to pour in. I would wake up the day excited to see all the new commissions pouring into my email box only to discover I had made 0 sales!

It took me years of doing this before I became fed up and finally decided to think outside the box and try something new! Once I discovered how to use traffic exchanges effectively, everything changed for the better. Soon I was getting daily emails about new signups and commissions! Now I enjoy surfing the traffic exchanges, because I know that I am using a system that works and will be getting real results from my efforts.

What I discovered is that most people surfing traffic exchanges are there for one reason only. Once I figured out this reason, it opened up a floodgate of signups that had eluded me in the past.

I have put this report together to tell you 2 things. One, the one reason every traffic exchange user is clicking & two how to tap into this reason and make a TON of residual income!

The best part about the system that I use is that it works for almost anyone that follows the instructions! If this is your first day online or your 10th year, it does not matter, this system will work for you!

The Reason People Use TE's

Before I tell you the reason people use traffic exchanges I want to explain that there are exceptions. There are some people who for whatever reason will spend 5 hours a day clicking a site to earn 35 cents or a buck. If this is you, and the only reason you are surfing is to earn a couple of bucks a week then you should exit this page right now as I have nothing here that will help you.

Now that I have gotten rid of the people who think they can make a living surfing TE's for miniscule cash bonuses, I can share with you the reason MOST people use traffic exchanges.

I am sure you already know this reason, but the reason is that they surf traffic exchanges to get TRAFFIC!

This is an obvious answer and should come as no surprise to you. The people that use Traffic Exchanges already have a program that they are proud of. They are there to get traffic to that site in the hopes of making a sale or getting a signup.

What I am sharing with you in this report is a way for you to help these people and at the same time make up to \$4000 a month or more in residual income!

How To Turn TE Credits Into CASH!

I am now going to tell you how to turn all of these credits that you have been racking up in the TE's into cash!

What I am going to show you is a simple strategy that you can plug into in the next 5 minutes and put it to work for you!

If you can copy and paste, you know everything you need to know to make this system work!

Since you are here, you are the proof that this system works. The main goal of everyone using traffic exchanges is to get someone to click on your splash page and break away from their surfing to read what you have to tell them. You have read this far, so you know that once you put this system to work for you that other people that you are going to show the splash too are going to also!

I am sure that you are wondering how much this is all going to cost you and what other benefits are available.

By plugging into this system here is what you are going to get:

10,000 Advertising Credits which you can use for this kind of advertising:

A Traffic Exchange

These clicks have resulted in my list getting bigger, multiple signups to my programs and more importantly SALES which have made me more money.

As you can see, this is something that EVERY Marketer online needs as everyone needs to advertise their websites. The 10,000 Free Credits by themselves are well worth any investment, but it gets better as I told you I was going to show you how to make money with this system too!
